PROJECTS

FOOD ORDERING WEBSITE

A user-friendly online platform that connects customers with local restaurants, offering a wide variety of cuisines for delivery. Features include easy menu browsing, secure payment options, real-time order tracking, and customer reviews to ensure a seamless and enjoyable dining experience from the comfort of your home.

NIGHT PATROLL CAR

The ESP32-based surveillance car is a compact, wireless, remotecontrolled vehicle equipped with a camera for real-time video monitoring and exploration of areas that may be difficult or unsafe for humans to access. Leveraging the power and versatility of the ESP32 microcontroller, this surveillance car can be controlled via a smartphone, tablet, or computer, with the live video feed streamed directly to the user's device over Wi-Fi.
